

Removing yourself from Zabasearch.com

In order to create, edit, or block your record, you must make that request in writing and mail it to: ZabaTools, P.O. Box 45210 Omaha, NE 68145. Receiving requests by mail allows us to verify and process your requests quickly. Records created, edited and ZabaLinks added may take up to several weeks to appear in ZabaSearch. Records requested to be blocked are typically processed the next business day after receiving the request. You will be notified by e-mail when your request enters our system and then once more when the requested records have been adjusted.

In order to fill your request your letter must contain the following information to insure we create, edit or delete the correct records. After you confirm by e-mail that we processed your request, your letter and the information you provided in it will be shredded. You will have created a record for yourself just as you like it and will be eventually given online tools to adjust your information as you like in ZabaSearch 24/7.

1. E-mail address
2. Full name including middle initial
3. Address of the record you wish to create, edit or delete
4. Phone number you wish to have removed
5. Year of birth.
6. Specify if you are requesting to create, edit or delete a record.
7. Sign and date your request
